## Description:

**Songkhla Rajabhat University operates a total of 2 distinct campus sites: 1) Main Campus (Songkhla) and 2) Satun Campus.**

*Songkhla Rajabhat University (SKRU) is one of the oldest institutions in Southern Thailand. It has been developing gradually from a Provincial Teacher Training School (established in 1919) to Songkhla Rajabhat University at the present time. Today, SKRU operates two distinct campus sites, covering a combined area dedicated to educational excellence, local development, and environmental sustainability.*

### 1. Main Campus (Songkhla)

- **Establishment & History:** Established originally in 1919 as a Teacher Training School, this campus has been the historical heart of SKRU for over a century.
- **Area:** 710,857.20 square meters
- **Facilities & Setting:** Located just 4 kilometers from the historic Songkhla Old Town and nestled near the scenic Khao Rup Chang hills, the Main Campus balances urban connectivity with extensive green landscapes. It houses the central administration, 7 main faculties, the central library, student dormitories, comprehensive sports complexes (including a stadium and gymnasium), and dedicated green recreation areas featuring natural ponds and shaded tree canopies that promote a sustainable learning ecosystem.

### 2. Satun Campus

- **Establishment & History:** Established in 1998 as part of SKRU's regional expansion plan to provide higher education opportunities and support local development in neighboring provinces.
- **Area:** 543,740 square meters
- **Facilities & Setting:** Located in the La-ngu District of Satun Province, this modern, purpose-built campus operates under the College of Innovation and Management. Surrounded by rich ecological landscapes and coastal geography, the campus features specialized agricultural research plots, eco-friendly learning facilities, student accommodations, and community-integrated learning centers focusing on sustainable tourism and local wisdom.
