[6] Education and Research (ED)

[6.20] Impact of Education and Research programs in supporting the Sustainable Development Goals (SDGs)

Project to establish a learning center for environmental, waste, and energy management towards sustainability

Songkhla University opens the Learning Center to welcome Yala Community College Study on the "Green University" model [SDG 4 (Quality Education)]

The project to establish the Environmental Management Learning Center invites the staff of the Environmental Management Learning Center to convey the method of making compost from leaves to their friends and personnel to : Increase skills and learn together correctly according to academic principles.

[SDG 7 (Clean Energy), SDG 12 (Responsible Consumption), SDG 13 (Climate Action), and SDG 15 (Life on Land)]

Seminar on Waste Management in the Community with "Climate Change" to prepare for climate change and organize a Green Agency Contest
May 22 , 2026

Description:

Songkhla Rajabhat University has strategically established the **"Learning Center for Environmental, Waste, and Energy Management for Sustainability"** to serve as an educational and research hub for students, staff, and local communities across Songkhla, Satun, and Phatthalung provinces. This program integrates local research into undergraduate curricula and community outreach services, driving practical achievements in waste separation (3Rs), renewable energy adoption, and climate action.

Through the **"SKRU Green University Awards"** organized internally, departments such as the Academic Resource and Information Technology Center and the Faculty of Industrial Technology compete to maximize environmental efficiency. This comprehensive ecosystem directly supports 11 UN SDGs (SDG 1, 4, 7, 8, 9, 11, 12, 13, 14, 15, and 17).
